  Completed in 2022

SKILL

- Quality Assurance
- MySql, Microsoft Office, Selenium, Android Studio
- Soft Skill
- Time Management, Communication, Adaptive
- Sql, SDLC, Java, Test Case, Test Plan, QA Testing

PROFILE

Results-driven testing professional with extensive experience in manual application testing and a solid understanding of the Software Development Life Cycle (SDLC). Proficient in designing comprehensive test plans, creating detailed test scenarios, executing tests, and meticulously documenting results to ensure optimal product quality. While developing hands-on experience with automated testing, a strong foundation in manual testing and a background in web and Android development enhance the ability to analyze, identify, and troubleshoot system issues effectively. Committed to delivering high-quality software solutions through meticulous attention to detail and a proactive approach to problem-solving.
